

TO WHOM IT MAY CONCERN

The North West Translators Network (NWTN) is pleased to confirm that all 37 participants thoroughly enjoyed our one-day legal workshop on 22nd January 2011 in Manchester led by David Hutchins.

David taught us a host of essential concepts and terms of English common law in such an engaging and lively manner that the day literally flew by. Both native and non-native speakers of English felt that they had gained much useful knowledge. David had prepared an excellent syllabus with emphasis on the specific requirements of translators, and supplied supporting materials both before and as follow-up after the event.

The NWTN is delighted with the highly complimentary feedback we have received from the participants, and would like to thank David Hutchins for his excellent contribution to our Continued Professional Education programme.
